ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

Paul Barker of Colorado State Parks explained that there is no surface connection from this reservoir and its wetlands to Michigan Creek and that water from this reservoir will not over flow to Michigan Creek except in the case of an exceptional flood event. No boating of any kind is allowed on the reservoir.
