

Introduction

The Omaha District Corps of Engineers can provide a wide range of talents, skills, and services. This folder contains information on available services and how you can obtain them.

- *Engineering*
- *Construction*
- *Contracting*
- *Operations*
- *Planning*
- *Real Estate*

A business concept

Our concept of customer service is “We Work for YOU.” At your request and direction and with your needs as our highest priority, we will respond with appropriate resources to meet those needs. We will provide you, our customer, with consistent quality, responsive and cost-effective engineering and technical support. If services outside the Omaha District are needed, we are partners with other Corps offices and we can tie into a larger network of additional capabilities.

How it works

For assistance or more information about our services, please contact one of the Project Management Offices listed below.

<u>Service</u>	<u>Name</u>	<u>Telephone</u>	<u>Fax</u>
Military Projects	John Popelka	(402) 221-3824	(402) 221-4828
Civil Works Projects	Ralph Roza	(402) 221-4574	(402) 221-4886
Environmental Projects	Douglas A. Plack	(402) 221-7700	(402) 221-7838
All Other Projects	Kenneth S. Cooper	(402) 221-3928	(402) 221-3128

In addition to these offices, we also have more than two dozen field offices located in nine states that can oversee construction projects involving all the missions indicated above. Just look in the telephone book information pages under Federal Government - Army Corps of Engineers, Area Offices. At all Corps of Engineers offices, our teams of engineering professionals are ready to help you.

For more specific information, please see the individual inserts in this folder or access us at <http://www.nwo.usace.army.mil>
