**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): 1. The proposed project is to upgrade US 183 from the White River to I-90 that will cross 3 non jurisdictional wetlands and 2 jurisdictional wetlands. The area of fill will be for the installation of drainage structures and riprap for erosion protection. The area is rural prairie setting. The area is currently experiencing normal rainfall. 2. NWI maps were used to make the jurisdictional determinations. The areas have no potential for ICC navigation. The wetlands have no potential and have not had potential for interstate commerce at 328.3(a).3.i.ii.iii. The project had 5 areas of consideration.
