1616 CAPITOL AVENUE
OMAHA, NE 68102-4901

Protective Design Center

October 7, 2024

Dear Sir or Madam:

A training seminar entitled "Security Engineering" will be offered February 24-28, 2025, in Omaha, Nebraska. It is presented by the Corps of Engineers Protective Design Mandatory Center of Expertise. The cost of the course is \$2,000.00, which includes updated criteria and reference materials. Class will start each day at 8:00 a.m. and conclude at approximately 5:00 p.m. The final class day will end at approximately 12:00 p.m. Student travel and per diem costs are not included.

For detailed information regarding this training seminar, please read the Registration Information packet. The Security Engineering training seminar is intended for an interdisciplinary group including engineers, planners, designers, security, anti-terrorism, and law enforcement personnel. The class is intended for civilian and military personnel involved in security or engineering support of security and anti-terrorism. Personnel from installation-level, major command-level, and Corps of Engineers district and division offices are encouraged to attend. Representatives from other federal government agencies and sponsored AE firms may also attend.

An application form is also attached. Please read all the information on the enclosed registration information packet. Once payment is received, a confirmation letter, including maps/directions, will be sent to the student. Payment deadlines are listed in the registration packet.

Students are responsible for making their own lodging and transportation arrangements.

For additional information, please email pdctraining@usace.army.mil, or contact 402-995-2393.

Sincerely,

A handwritten signature in blue ink, appearing to read "John R. Galloway", is located below the "Sincerely," text.

John R. Galloway, P.E.
